

LearnFlow Platform

Product Guide | Q1 2025 Edition

1. Product Overview

LearnFlow is ConsoleFlare's flagship learning management platform for upskilling teams in Data Science, AI, and Cloud technologies. Designed for individuals, teams of 10 to 5,000, and enterprise organizations, LearnFlow brings together interactive courses, live mentorship, hands-on projects, and progress analytics in one unified platform.

Key differentiators:

- AI-powered personalized learning paths and skill assessments
- Live instructor-led sessions with industry practitioners
- Hands-on capstone projects with real-world datasets
- Advanced analytics dashboard for tracking learner progress
- 50+ courses covering Python, SQL, Machine Learning, Deep Learning, NLP, and Generative AI

LearnFlow is available as a cloud-hosted SaaS solution or as a white-label deployment for organizations with specific training requirements.

2. Features and Modules

Course Library: 50+ structured courses from beginner to advanced levels. Each course includes video lectures, reading materials, coding exercises, and quizzes. New courses are added monthly.

Live Classes: Weekly live sessions with industry mentors. Interactive Q&A, screen sharing, and live coding demonstrations. All sessions are recorded and available on-demand.

Project Hub: Hands-on capstone projects with real datasets. Automated code review and feedback. Portfolio-ready projects that students can showcase to employers.

Skill Assessments: AI-powered skill gap analysis and personalized recommendations. Pre and post-course assessments to measure learning outcomes. Industry-recognized completion certificates.

Community Forum: Peer-to-peer discussion boards organized by topic. Mentor support with guaranteed 24-hour response time. Study groups and collaborative learning features.

3. Pricing Plans

Individual Plan -- INR 4,999 per month

- Access to all courses
- 2 live classes per week
